Here are instructions on how to locate a medication:

Step 1: On main Aetna site, please see 2024 Aetna Standard Plan

Step 2: Scroll down and hit “Find Medicine” under “Is my medicine covered?”

The screenshot shows the Aetna website navigation bar with the following elements:

- Aetna logo (heart icon and text)
- Contact us
- Español
- Search bar with a magnifying glass icon
- Explore Aetna sites (dropdown arrow)

Below the navigation bar, there are five main menu items:

- Explore plans
- Member support
- Find a doctor
- Find a medication
- Member login (highlighted in a purple button)

The "Find a medication" section is expanded, showing three columns of results:

- Is my medicine covered?**
Search for generic and brand-name drugs to check if they're covered.
[Find medicine](#) (purple button)
- Pharmacy drug guide**
Find a list of commonly used prescription drugs covered by this plan.

Step 3: Search for medication by typing in the name of the drug OR search by alphabetical listing

2024 Aetna Standard Plan

You may search for your prescription in several ways:

- Use the alphabetical list to search by the first letter of your medication
- Search by typing part of the generic (chemical) or brand (trade) name
- Search by the therapeutic class of your medication

This is not a complete list of drugs covered under your plan. Check your plan documents for coverage information. Your plan may not cover certain drugs to treat conditions such as infertility, erectile dysfunction, and weight loss. Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size. This listing does not include certain NDCs. To check coverage and copay information for a specific medicine, log into your member website. If you're still not sure whether your plan benefits include coverage, call the toll-free number on the back of your ID card.
